

I feel that if I desire to pay for the service provided by XM, I should not be hindered from receiving local information simply because a local radio station (whom I have chosen to avoid because of foul language, innuendos that do NOT go over my children's heads, and a barrage of advertisements for alcohol, crude movies, etc. etc) feels that they have a right to OWN the traffic patterns and weather pattern information in Memphis. Please find in favor of XM. Be sure that if they don't deliver good service, I will have a voice with my checkbook!
